Metcraft's Parks & Recreation fixtures feature heavy gauge stainless steel construction, seamlessly welded to form a one piece unit that is bead blasted for a high quality finish. Their use in public areas such as roadside parks, rest areas, campgrounds and sports facilities provide excellent protection against abuse and vandalism in comparison to vitreous china fixtures which may require frequent replacement due to breakage. **Most popular models are in stock and available for immediate shipment.** In addition, Metcraft has a full line of ADA fixtures for your special use needs. For a complete listing please visit us at www.metcraftindustries.com or call us at 816.554.0300 or toll free 866.382.7238.

TOILET FIXTURE

WASHDOWN URINAL FIXTURE

Our **Toilets** come in many models with various accessories. These toilets can be constructed to match current rough-in configurations or constructed using our standard rough-in configuration. You can specify wall mounted fixtures or floor mounted fixtures. You can specify hinged toilet seats, paper holders and grab bars to complete your specific requirements. Many models are available ADA compliant.

Our **Urinals** come in many models with various accessories. These urinals can be constructed to match current rough-in configurations or constructed using our standard rough-in configuration. You can specify wash-down style urinals, stall type urinals, straddle type urinals, trough type urinals and blowout style urinals. Most of these urinals can be mounted at the proper height to meet the current ADA requirements.

Our **Lavatories** are designed for public use areas. In addition, we have a full line of lavatories which meet the current ADA requirements. These lavatories can be constructed to match current rough-in configurations or constructed using our standard rough-in configuration. You may specify faucets and trim of your choice or select from our optional trim choices. Standard valving can be specified or more vandal resistant valving can be specified.

LAVATORY FIXTURE

DRINKING FOUNTAIN FIXTURE

Our **Drinking Fountains** are designed for installation in areas with or without an accessible pipe chase. Fixtures are furnished with a security type, chrome plated brass bubbler head and a pneumatic push button control valve with .5 GPM flow control. Metcraft has several models which meet the current ADA requirements.

Our **Mirrors** are designed for high abuse areas. Metcraft has several designs depending on your application. The mirror itself is heavy gauge stainless steel polished to a #8-mirror finish. These mirrors are designed for a through-the-wall mounting application or for a simple front mounted application. Several standard configurations are available or you can specify custom sizes to meet your application.

HIGH SECURITY MIRRORS
